## Global Brands Attribute Their Success To Us

# Awards & Accreditations

# Key Members

**Minkyu Koo** *CEO*

Minkyu Koo is the founder and CEO of Divii Consulting. Prior to initiating the IT consulting business, he founded his first IT venture Subcommune in 2012 after completing his MBA from Fordham University, New York. In 2013, he founded Han River Technology in India, and then in 2018, Divii School in Korea. Having the genes of entrepreneurship, marketing, project management, research and development, Minkyu is responsible for leading Divii's burgeoning strategy discipline and sharpening the overall strategic vision and approach of the organization.

**Avinandan Roy** *Co-founder and the driving force*

Avinandan Ray is the co-founder and the driving force behind the Divii Consulting. As the Managing Director, Avinandan is an asset to our company as he leads us to develop initiatives. For 10 years, he has steered Divii Consulting from modest origins to one of the most vibrant, successful digital solution providers in the world.

**Hyunjin Koo** *Managing Director*

Hyunjin Koo is the Managing Director of Divii Consulting International. Hyunjin is specialized in international project management with 20 years of experience in marketing, communications and government relations including \$30 billion dollar city-scale development, Songdo International Business District, in South Korea.

**Sanjay Pandit** *Application Development Manager*

Sanjay Pandit is the Application Development Manager of Divii Consulting International. He is responsible for overseeing the creation of new software applications. He works with the team of developers to determine what features should be included in the application, as well as how those features should function.

**Dipankar Deb** *Chief Technical Officer*

Dipankar Deb is the CTO of Divii Consulting. He makes all executive decisions with regard to the technological interests of the company. He is responsible for outlining the company's technological vision, implementing technology strategies, and ensuring that the technological resources are aligned with the company's business needs.

# Our History

## How It All Started:

Our first IT venture Subcommune, Inc. kickstarted by two tech enthusiasts Minkyu Koo & Avinandan Ray with an **unparalleled passion** & long vision to make a huge impact in the EdTech industry.

2012

2013

## Established Indian Subsidiary:

We extended our arms to **build a robust team** in India and established our Indian Subsidiary, Han River Technology.

## Launched Video English Dictionary:

We launched the world's first video dictionary which gained substantial popularity and reached **200,000 downloads**.

2014

2015 – 2017

## Growth:

Started with 3 employees, the company had successfully reached the mark of 45+ employees and developed **100s of EdTech learning modules**.

## Revolutionized EdTech Industry:

We launched the **Divii School** website and application with patent registration of an artificial intelligence-based learning system. Coordinated and managed 700 math tutors from Princeton Review, USA.

2018 – 2020

2019

## Expansion Of Business:

We started **Divii Consulting** to provide IT services to startups and global brands with our industry-leading expertise in IT development.

## Recognized As Industry Leader:

Achieved **100% project delivery rate**, currently we are a team of 200+ world-class professionals and have successfully delivered 300+ projects.

**05** FAQs

# Frequently Asked Questions

**Q1. How much industry experience does your organization have?**

Divii Consulting was established in 2012 i.e. we have a decade-long experience in leveraging brands with our cutting-edge digital solutions.

**Q2 .How much do your services cost?**

There are a number of aspects from the initial concept to the final implementation. Therefore, the cost varies according to the project requirements and the duration you work with us. You can contact us to get a free cost estimation for your specific project.

**Q3 .How do you cope with clients having little understanding of technology?**

If you have a clear vision for your project, we can be a great pair. We are well-versed in transforming your ideas into reality using our expertise in different technologies. We, at Divii Consulting, are here to serve you with the best of our offerings. With our smooth and comprehensive process, you will find things highly simple.

**Q4. What are your specializations?**

We work with different types of firms (start-ups, brands, medium-sized and enterprise-level corporations). We serve diverse business industries, including beauty, technology, health, travel, finance, food, medical, apparel, transport, education, restaurant, technology etc.

Over these years, we have helped business owners improve their customer service, better market their services and products, and earn more customers. Our staff devotes ample time to know the client's industry, and their competitors to accomplish all the desired goals.

**Q5. What would be the experience level of the developers you allocate for any project?**

Our experts possess an average experience of 5 years. In terms of expertise, they remain updated with the latest trends and technology in the web and mobile app development industry.

**Q6. How much time will you take to build my website?**

It totally depends on the complexity of the project. For instance, if we are provided everything, including content and images, it takes a few weeks to design and develop a small website with 9-12 pages.

**Q7. What technologies do you work on for app development?**

We create apps for Google Android, Apple iOS, Windows, etc. Our developers implement the latest industry trends by adapting the latest and advanced technology options such as Flutter, React Native, AR/VR, Artificial Intelligence, IoT, and others.

**Q8. How do you ensure the quality of the results?**

Divii Consulting has maintained a 100% project success rate since its incorporation and we minimize the risk of the development process. We flexibly respond to any situation and environment, thereby always producing the best result.

**Q9. What does make Divii Consulting a good choice for my next project?**

Divii Consulting has attained ample experience, expertise, the right staff, and solid infrastructure to accomplish the project demands. Our solid portfolio of web development, mobile app development, web design and digital marketing as well as our strong presence in the industry makes us the best choice to hire.

# Thank ü

We apply strategy, creativity, design and data to help transform ideas into reality.
